ABOUT THIS GUIDE

In this guide we'll walk you through setting up MetaMask on your mobile and obtaining your seed phrase.

Your MetaMask wallet is the gateway to interacting with DAO1 and managing your digital assets securely. But before we dive in there's one non-negotiable rule you need to understand:

Your seed phrase is EVERYTHING. Protect it like your life depends on it.

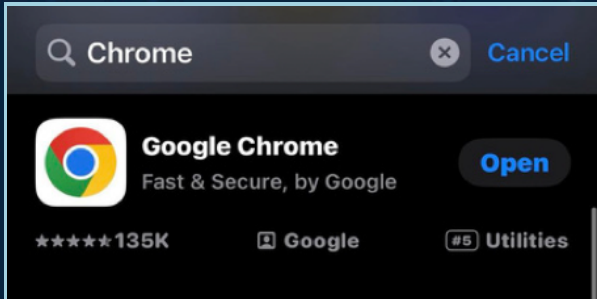

When you create a MetaMask wallet you'll be given a seed phrase - a series of random words that act as the master key to your account. This phrase is the only way to recover your wallet if you lose access to your device. If someone else gets hold of your seed phrase they can drain your wallet in seconds.

Once you've set up MetaMask and secured your seed phrase, you'll be ready to move forward with creating your DAO1 account. If you already have MetaMask on your mobile phone you can proceed to the next guide.

1: Download MetaMask App

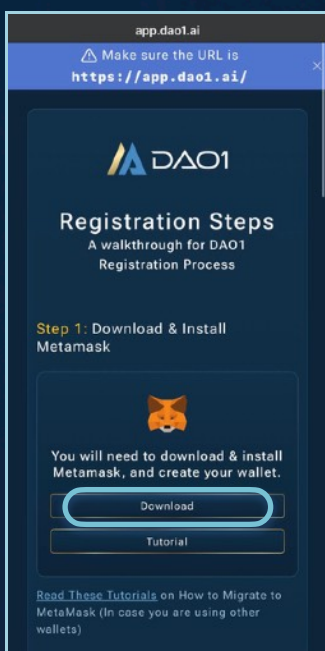

Ensure you are using the Chrome browser on your mobile phone as other browsers will not work as seamlessly with the applications needed for your DAO1 registration.

If you haven't got Chrome on your phone, download it from the Apple App Store or Google Play Store.

Click on the registration link given to you by your sponsor and you will land on the following page. The registration link given to you will look like this, except with numbers where the 'XXXX' are:

<https://app.dao1.ai/auth/enroll?referral=XXXX>

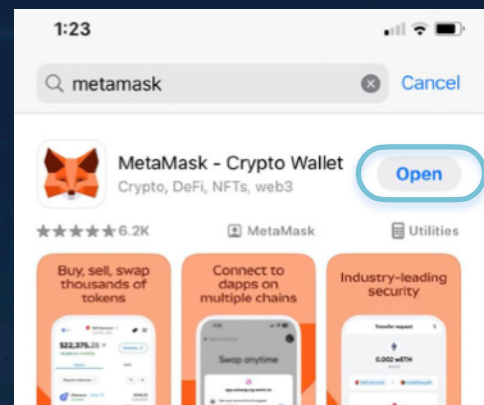

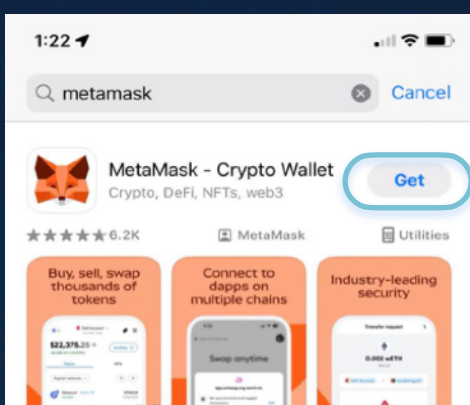

Click on '**Download**' to download and instal MetaMask.

The '**Tutorial**' button will step you through the process.

Click on '**Get MetaMask**'. You will then be directed to your app store, where you can download the MetaMask app to your phone.

Alternatively, you can go straight to your Apple App Store or Google Play Store and download MetaMask direct from there.

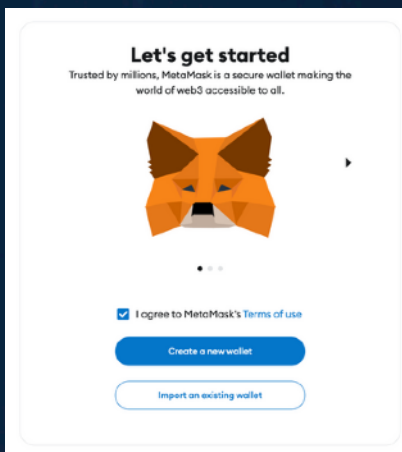

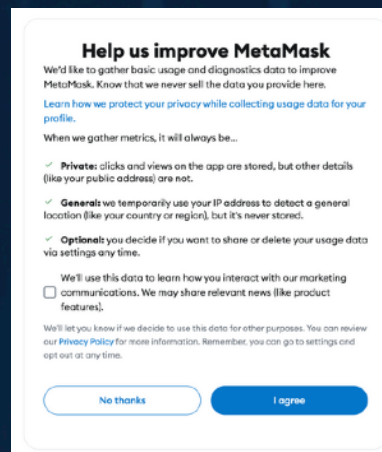

2: Create A MetaMask Wallet And Obtain Seed Phrase

a) Read and agree to the Terms of Use, then click the 'Create a new wallet' button. **b)** Choose whether you give MetaMask permission to gather usage and diagnostic data. Press either 'No thanks' or 'I agree'. **c)** Set a Password (ensure you record this somewhere safe and private as you will need this to access your account in the future). **d)** Click 'Secure my wallet'.

c)

d)

IMPORTANT

The next steps are where you will access your secret recovery phrase, otherwise known as a seed phrase.

- Write it down and store it somewhere safe - offline.
- NEVER share it with anyone. Not MetaMask, not DAO1, not customer support - no one!
- Avoid storing it digitally (no screenshots, no notes apps, no emails).
- If you lose it, your wallet is gone. There's no reset button in crypto.

IT IS CRUCIAL that you take into account these golden rules.

0x347c83df90cc7a181196df326f643b76a19997b6-3256-1744015847

e) Click 'Reveal Security Recovery Phrase' (ensure nobody is looking). **f)** Write 12 words down in order and store somewhere safe. **g)** Enter the missing words to verify you have recorded phrase correctly then press 'Confirm'. **h)** Press 'Done'.

IMPORTANT

Your Seed Phrase = Your Wallet's Lifeline

Your seed phrase is the only way to recover your wallet if your device is lost, stolen, or compromised. If someone else gets it, they can steal everything - no undo button, no customer support to save you. Write it down, store it safely offline, and NEVER share it with anyone.

Your MetaMask account will now open.

We suggest at this point, clicking the arrow next to your account in MetaMask, and then clicking the three vertical dots to the left, and tapping 'Edit account name'.

Rename this account so you can clearly see it is your DAO1 account e.g. 'Sarah DAO1'.

You are now ready to move onto the next guide, where you will complete your DAO1 registration and KYC.
